### **Attractive Solutions** *CareCredit*

Part of our job as your dental care provider is to try and work with you to ensure that your personal financial circumstances do not interfere with your dental health care decisions. This is why we recommend *CareCredit*®, an affordable payment program that has a unique no-interest payment plan. *CareCredit* enables healthcare providers to offer flexible payment options to cover many costs that many insurance plans currently don't.

With *CareCredit*, you can pay for treatment over time. There are no up-front costs, or annual fees, no prepayment penalty, and the application process is quick and easy. *CareCredit* offers monthly payment plans to meet almost every need so that you can focus on what's most important - ensuring good dental care.

Ask for a *CareCredit* application ... and begin treatment today!

*Yours in good dental health,*

*Dr. Gerald P. Gardner &  
Dr. Daniel J. Lehenbauer*

# Say "Wow" Now!

## Smile brighter with Zoom! Advanced Power

Teeth whitening has never been safer, faster or more effective, thanks to Zoom!® Advanced Power™, the very latest in-office teeth whitening. It is so effective that your smile shade could literally zoom right off the whitening charts! The Zoom people call that the "wow factor" because patients are so completely wowed by the dazzling brightness of their smile!

Zoom! Advanced Power goes even beyond Zoom! and Zoom2 whitening procedures that you may have seen on ABC's Extreme Makeover. That's because optics experts have created an exclusive custom light technology that has the highest output of any chairside whitening lamp available. Combining this light source with Zoom! Advanced Power 25% hydrogen peroxide gel, will create your super-wattage smile!

Wouldn't you like to achieve in only 45 minutes what would normally take weeks to achieve at home? And these results really last! In fact, we can provide

a customized take-home touch-up kit with custom-fitted trays for an annual perk-up.

Perhaps your teeth have discolored from the most common causes – staining beverages and products like tea, coffee, red wine, berries, and tobacco. Possibly

age or tetracycline are the culprits.

Zoom! Advanced Power could be the answer you've been looking for! Call us today for your personal smile consultation. **In only one office visit, your teeth could Zoom! to the top of the charts ... and then some!**

## Office Updates

We hope everyone got through this hectic holiday season and that good health finds you for the New Year. As we kick off the year, insurance benefits also renew for many of you; making this is a great time to start any treatment that wasn't finished last year or any new changes you would like to make to your smile.

● Among our regularly available treatments we are also offering *Invisalign*® treatments- invisible braces that take half the time to complete!

***On Saturday, February 3rd from 9 am -1 pm, an open house will take place for all those who are interested in straightening their smiles. Free consultations, diagnostic impressions, necessary x-rays, and bleaching trays, as well as a \$300 discount and raffle prizes will have everyone rushing to get their appointment. Call soon to reserve a time that best suits your needs before they are full.***

● When longer appointments are scheduled or whole families are coming in, why not bring some entertainment for the kids? Our waiting room is equipped with a DVD player that we are happy to share. If you would like, bring in a movie for the kids to watch while waiting.

● To help finance any needed services while trying to also pay those holidays bills, *CareCredit*® may be the answer. We are now able to pre-approve credit and give estimates of monthly payments, even for old balances. You can even get eighteen months free of interest. Call today for more details and to see if you are approved.

● Lastly, we would like to thank all of you who were kind enough to bring in food donations for those in need this holiday season.
